Let's Not Panic

Remember nearly a decade ago when the Soviets were fouling the atmosphere with their nuclear tests and everyone was worried about Stronium-99 poliuting the air, the food we cat and so on.

So far as we are aware no scientific thority has come out and said that any such dire consequence has befallen anyone, And along this line of thought we have con-firmation in the advice of Miss Frances Hucks at last week's meeting in Belleville of the women's advisory committee to the Ontario department of trade and commerce.

Miss Hucks, who is supervisor of food and nutrition with the home economics of the Ontario department of agribranch of the Ontario department of agri-enture, said there was no need to panic over "scare headlines" about food additives, pesticides, chemicals and harmful foods.

No country in the world, according to Miss Hucks, is better looked after in the safety of what we cat — a reference to the eral government's regulatory powers under the food and drug act.

It is another concrete instance of the fact that mankind stems to survive all its worst fears, although we do recall reading of some people in New Mexico who suffered serious micreury poisoning from eating meat from hogs that had been contaminated; such cases, however, are rare.

Miss Hucks' address was one aspect of ide-ranging conference which brought together women from across Ontario in discussion of the women's role in the seventies, as wives and mothers and members of the work force and which concluded on a truly minine note with the holding of a fash-

Some Stores Talk About Trim. **Dominion Guarantees it!**

WE GUARANTEE that the fat "trim" on all regular cuts of beef at Dominion will not exceed one-half inch. If, at any time, your selection fails to meet with this, (or any of the other precise requirements in our "Guarantee of Performance"), we encourage you to take it directly to the butcher. He will re-trim, re-weigh and re-price your selection, right on the spot.

EXAMPLE No. 5 (Illustrated on Left)

A Dominion "Round End" (bone-in) Rump Roast is ruly a fine cut of meat. When "naturally" aged and trimmed to Dominion specifications, few cost offer more pleasing flavour and tenderness. A meaty roast... naturally learn... guaranteed to satisfy in every respect. Our policy on trim:

- Outside covering of fat must not exceed one half inch in any given area.

Upper Canada Village and similar manifestations of practical interest in preserving our past are good examples of public concern in this regard. What a tremendous loss it would have been to Canada if the neces-sary steps had not been taken to create the pioneer village.

Consider that had it not been for creation of the heritage organization at the building would have faced demolition at the behest of the Lower Trent Conservation Authority which contemplated building new administrative offices on the site.

Perhaps the Authority now has a new appreciation of the tern "conservation." After all, it applies to historic buildings as well as to the riches of field and stream and the environment generally.

Bureaucracy's Image

If there is one type of person we find it fficult to tolerate it is the little Caesars, ale and female, who occasionally manifest semselves in government departments.

Such a person, we suggest, is the wom-an cashier at a Toronto branch of the trans-portation and communications department who refused to accept a customer's \$70 ve-hicle licence payment in silver dollars.

Here is what she said to the man:
"We're not a bank. Either pay with bills or
don't bother buying." Later, she said: The
office was extremely busy. And we didn't
have time for nuts."

We see folding wrong with 70 silver dollars. Some people go to a bit of trouble just to negative some as souvernis, and if the woman professes to be a cashler it should not have taken her very long to count them. The only conclusion we can reach is that the government, by pentisting with its refusal to go ahead with what many regard as a necessary project (one incidentally that would create employment in the area) is taking chance with the lives of those who daily use the antiquated Bay Bridge.

daily use the antiquation may assign.

The extreme weather conditions that hit this section of the bay — and indeed the whole area — are known to all, but no more so than by the residents of Prince Edward county. The section that recently bette a school but in driving wind and mow was a very real indication of what could happen.

The department of transport and com-munications must bear the main responsi-bility for this situation, and for any turns-serious accidents that arise from the inade-quacy of the structure in extreme weather conditions.

Introducing an ale that's been around for generations.

We've been brewing Club Ale in Ontario

for over a hundred years. And if we've been a little slow in getting Club to you, it's because we insist on brewing it slowly.

Formosa Spring is a small brewery.
And we won't hurry our beer.

But now we've got a little bigger. So even though we don't brew Club any faster, we brew more of it.

So now there's enough to go around.
Try yourself a slow brewed Club Ale.
We take the time. You taste the difference.

Club Ale.

At Formosa Spring, we won't hurry our beer.

The Lonely

The Lonely
There is a song of the moment which
speaks of "all the lonely people," and we are
remended of it by a letter from the principals of the Ability Fund. It seems that canscarce found themselves in the sold alltac chat. This is one more reminder of the
fact that incellenes is more prevalent in our
society than might be supposed. One gets
the impression in church too that there are
present people who are lonely and seek not

If all your economy car has to offer is economy. you're wasting your money.

Many so-called economy cars aren't so economical when it comes down to what you

get for what you pay.

Especially when you consider what you get with a Corolla. For the same money.

Unlike most other economy cars, the Corolla 1600 looks good.

Unlike most others, Corolla offers lots of big car comforts. Like leg room. Reclining bucket seats. A heater that heats. Fresh Flow ventilation. Things that would cost extra on theirs, but come standard on ours.

Unlike most others, Corolla offers a cross-flow engine as standard. The most efficient 1600 cc

Unlike most others, Corolla brings a high resale value. (Consistently higher than other economy cars.)

And last, but certainly not least, Corolla offers economy. Just like the

STORE HOURS:

Serious about Saving?

Most Meat Buyers Arel The trouble is, how can you measure savings on something like a steak or a roas? Every store does things a little differently. Some cut off excess fat. Some leave it on. Even if you're sure the meats are of equal quality, it's hard to compare the amount of edible meat you get, at the price you pay per pound. So, we introduced a new Guarantee of Performance...a policy that guarantees you "exactly the right amount of trim". Even a new bride knows that you need some fat to preserve flavour and tenderness, but who decides how much is enough?

The Experts Say "One-Half Inch of Fat". No Morel So that's all we leave on. Any more and you're paying for fat, with money that should be buying meat. Consider this example: A typical 3 B. steak, cut one inch thick should carry no more than ONE-HALF INCH of fat around the outside edge. The samile steak, with ONE INCH of fat left on, will weigh about 4 ounces more. At a price of, say \$1.37 per pound, you would pay 346 (116 per pound) extra, for unnecessary fat and wastel So "Measure Up" for yourself! Compare the trim you may be getting elsewhere with the trim you know you can get at Dominion. Our "Guarantee of Performance" is your assurance that your purchase will be trimmed the way it should be. Guaranteed Tirim plus Everyday Deep Discount Prices...an unbeatable combination.

EXAMPLE: Whole Round Steak (Illustrated Above):

Whole Round Steek is a naturally lean, mesty cut of best that promises exceptional meta value, when trimmed to Domision specifications. Proper "returnl aging" is of prime importance if the full natural flavour and tendemess is to be preserved throughout the cooking stage. Beyond this, our standards of tim are:

- No more than One-Half inch covering of
- outside fat, in any given area.

 All excess interior fat must be trimmed away.

Coodyear introduces

Steel belts for extru strength.

No doubt about it, steel makes the best belt. And now Goodynar makes a tire with two steel belts under the tread. The Castom makes a tire with two steel belts under the tread. The Castom Februs Custion Polysial, It is another Goodynar Frist" and it seets a new standard in the Redshilly and value.

Here's winy steel is better. Oil all best assure of the resistance to stretch of the material—the higher the modules the less it stretches for a given load. This is particularly important for the reinforcement used in belts. As a riguil, steel belted three last longer, have minimum rolling resistance for greater field economy, control and their mechanical properties—unlike fabric belts—are unaffected by modisture,

Polyester cord for smooth ride.

Underneath the steel belts are four full plies of Polyester cord to soak up the shocks, Polyester can sustain the flexing, joining and bumping of the hardest driving, So in addition to the strength of steel, you get a smooth, safe, comfortable Polyester ride. Goodyear is always looking for better ways to get you where you're going. Polysteel is one more reason why more people ride on Goodyear ties than on any other kind.

Turonto.

Introduction of provincial affairs, and pertaining to health matters in particular, we share Health Minister Dr. Richard Potter's concern over the findings of an Ontario Addiction Research Foundation

ion study.

The report, admittedly an interim one, ass concluded that daily use of marijuana auses no adverse physical, psychiatric or ocial effects. But Dr. Potter says the consocial effects. But Dr. Fotter says are con-clusions "are little more than impressions which should be treated conservatively." Scientists, he adds, are "years away" from complete knowledge about marijuana and he says he personally is morally and medic-ally opposed to the legalization of the subally opposed to the legalization of the sun-stance.

Meanwhile, Dr. Vivian Rakoff, director

annotes and the second of the control of the potential and education at the Clarke Psychiatric Institute in Toronto, has warned about possible long-term effects. The loss of productivity enough to deter me as a rational human belang."

What does surprise us is the evident lack of research knowledge of instances surrous consequences. We recall reading of a U.S. soldier in Victiman who got high on pot and abot several of his buddles. There was not to be a U.S. soldier and the second of the several of his buddles. There was not a complete at Man and His World was knifed to death by a fellow student all-gody high on pot.

A key factor here is the psychological behance of the individual concerned. An in-dividual of sound mind is less likely to suf-fer an adverse reaction that one who is tun-stable. If marijuana were to be legalized we could expect truste of this nature while from a general standpoint encounquip en generacy and intellectory among table.

You look at Chevelle... it says style. You price Chevelle... it says value. You look into Chevelle... it says dependability.

First things first, so let's take a closer look at Chevelle's style. In particular, the style of the Chevelle Malibu Sport Coupe. This is a very sporty-looking machine. Featuring an easy-wheeling 112" wheelbase and a sweeping, low-profile silhouette. And notice the full-door glass. Another snorty touch.

And notice the full-door glass.
Another sporty touch.
Now, how about Chevelle value.
Vabe isn't just a question of how
much car you get for your dollar (in
Malibu's case it's a heck of a lot), but
how well the value holds up:What
happens at trade-in time?

All Chevelles have a gratifyingly high resale value simply because they've prowed themselves over the years. Because they hed up over the years. And here's why?. Chevelle dependability is the sum of Chevelle dependability is the sum of the years. And here's why?. The years which was not to be the years of the years

U.S. Crime Problem

There was a time when President Nix-on hammered hard on the theme of law and order. Today we hear little of this and while order. Roday we hear little of this and while the police may still be seen standing menac-ingly on the street corners of downtown USA crime still stalks the land, and to a de-

School Comparisons

Interesting that comparison between Hastings county schools and those of Metro Toronto as viewed by students of East York visiting here. It appears our schools here are about a year behind academically, in some

visiting here. It appears our schools here are about a year behind candemically, in some subjects at least, but in other respects — such air Moirs secondary's community ser-vice program — we are ahead. The big city kids were taken aback by the fact a book of Leonard Cohen poems on their curriculum is produced here only on request of grade 13 students because of its "offensiveness." Well attitutes may have "offensiveness." Well attitudes may have changed and permissiveness given freer rein in recent years, but if some of us regard semething as offensive — in art, literature or whatever the medium — then it is just

that.

We are not in favor of censorship, al-though in some situations it may indeed be necessary. Sometimes the brakes should be applied to the "anything goes" philosophy so prevalent today.

So Who Needs Spring?

Is spring all that is necessary to turn young people's romantic fancies? This undisturbed Zwick's Island scene yesterday may seem to deny the legend. But then the young couple may only have been mutually enjoying the tranquil wist of a perfect winter's day. Spring, by the way, is still officially simpost two weeks away.

"Peaches and Cream?"

Money knit everything. It was not dif-ficult to appreciate the truth of this prem-les in a recent article about singer Anna Murray, the girl from Nova Scotia who from a modest start in Halifax in 1966 made the big time.

style, a winsome manner, a certain throati-ness — and one record, Snowbird, which scared to the top of the charts, sold a mil-lion o-more, and transformed the girl from o-more, and transformed the girl from nghill into an international star.

Ostensibly, Anne Murray is still the same quiet and modest young Maritimer, but you cannot undergo such a traumatic ience without changing to so dom, the lack of privacy for one who essen-tially is a very private person, the loneliness of it all and the rat-race quality of a profession that is as transient with its favrs as it is synthetic. We have heard the same kind of plain-

tive confessions from such widely-contrasting performers as Metropolitan Opera star Teresa Stratas, who grew up in Oshawa and Toronto, and the bearded young man whose name escapes us and who heads the Irish Rovers group who perform out of Vancouver. Oscar Wilde said that "nothing succeeds like success," yet all three of the have confessed to a restlessness that afflicts those who have reached the peak and dis-

In 1971 Toyota became Canada's top selling small car. Getting there wasn't easy. We discovered that back in 1965, when we brought our first Toyotas to Canada. We started learning what Canadians wanted

in a small car. Since then, the Toyota story has been one of consistent improvement and success. Take a look back over

the years.
From the first
Crowns, Coronasiand
Corollas to the newest
Cclicas. Every Toyota
now has better looks, more horsepower and

more extras that are standard equipment. We don't believe that staying the same for twenty years is a virtue. And we don't believe in adding the superfluous just for the sake a long list of other improve-ments and features which are usually extra cost Rear window defrosters and

things as front disc brakes. Overhead cam engines.

The Unknown

So there is still no new thing under the sun ... what's this we see about a mowmo-bile-type vehicle on Quinte roads back in 1921. Well there was that jetture in Sat-turday's Intelligencer of the vintage Ford adapted by the Vivian brothers of Shannon-ville to run on skis and hey presto they had a recompositie.

The vehicle could almost be classed as see of those Charlots of the Gods seen on levision Sunday night. This fascinating comentary surveyed wall carvings around the world which bear an incredible like-aroccumentary surveyed wall carrings around the world which bear an incredible likeness to modern space travellers, also the intricate autonomical data of the early Mexican cultures, as well as strange directional markings on the finants of the Andew which guide air travellers (and air travellers only outle have seen them) to what has all the ballonaries of a handing pletch. Leisure Society?

Prime Minister Trudeau has come up with a subtle new philosophy on the em-ployment situation. With Robert Stanfield and David Lewis breathing down his neck-over lack of jobs, Mr. Trudeau suggests that man's fulfillment, as he mores closer to a man's fulfillment, as he mores closer to a ere society, may not necessarily come

rough work.

Unemployment figures, he told a Vic-taville, Que, gathering recently, are often esting because some people do not want work and prefer to live on unemployment surance which, he added, is their right.

Well now there are indeed people like as distinct from the majority, we supse, who have been brought up on the so-lied "work ethic" and without which ost of us are ill at ease.

Or as Browning viewed the dilemma in
the Glore, and summarizing his verse, when
man is busy leisure strikes him as wonerful, but when he finds himself at leisure

right away he wants to be busy.

The Prime Minister returned to his theme in an interview in Montreal the other day. "Perhaps there is a growing perce age of people, though I'm sure it is still erry small, who don't want to continue coking to work in the traditional sense in order to fulfill themselves as human be-

MRS. BETTY BOX, 6 Mill Street, Lyn, Ontario.

5 Mill Street. Lyn. Ontario.

Mrs. Box, who shops for four, drives three miles to come to Loblaws in Brockville. She says. "It's worth it because I'm always happy with what I buy at Loblaws." I'm very fussy about meet so I prefer to buy it all at Loblaws. As far as my food bill goes, I'll admit I watch prices. Like most people I don't want to pay any more for food than I have to. But in comparing Loblaws prices with those of other stores I think I come out better here".

Why Pay For Fat With Money That Should Be Buying Meat!...

WE GUARANTEE that the fat "trim" on all regular cuts of beef at Dominion will not exceed one-half inch. If, at any time, your selection fails to meet with this, for any of the other precise requirements in our "Guarantee of Performance"), we encourage you to take it directly to the butcher. He will re-trim, re-weigh and re-price your selection, right on the spot.

Everyone knows Dominion's reputation for Canada's "Finest Quality Meats". Everyone knows about Dominion's Deep Discount Prices. And, thanks to Dominion, EVERYONE will soon know how meat should really be trimmed!

EXAMPLE—Blade Roast

And a good example it is. A Blade Roast requires precise "trimming" to exacting specifications, if precise "trimming" to exacting specifications, if you the meat buyer are to receive full value for your money. Our policy:

A Strong Man

There are those who regard evangelist Billy Graham as facile, dogmatic, a power-ful orator who plays on the emotions and mesmerises — even shocks — his audiences into a condition of passive acceptance of his "born again" scriptural messages.

But Dr. Graham insists he is merely the But Dr. Graham insists he is merely the medium, the messenger of God and while there may be some hint of self-aggrandise-ment and of vanity in the strong, handsome face there is no doubt the charisma and the oratory are influential.

You cannot listen to Dr. Graham without being impressed by what he has to say. The diction is clear, the delivery competent, The diction is clear, the delivery competent, the content nearly always interesting, down-to-satch. And, significantly, it spans the generation gap. For proof, there have been those huge audiences in Chicago this week and the large number of temagers and young adults there must have belien the entry of ministers in this country, who on Sunday see before them congregations composed langly of the middle-aged and elebrary.

Dogs on the Loose

Dogs running loose in rural areas and menacing farm animals and game — a situ-ation discussed by reporter Harry Mulhail last week — is something dog owners and public must take seriously. Lands and For-ests personnel and municipal dog catchers find the problem impossible to control with inn the problem impossible to control with the resources at their disposal (they simply cannot be everywhere) which places the re-sponsibility squarely on the shoulders of dog

Where the killing of deer 5 concerned the much-maligned wolf, which tends to kill only for survival, is not the menace dogs have been proved to be. But there is another side to this: it is our conviction that by and large dogs are badly treated, or at best neg-lected, by their owners. A dog on the loose is a much more common aight in rural areas for example than is a dog being exercised by its owner. Those that are tied up by regula-tions are left, often in the open in bitter

weather, for hours on end.

It is a disgrace that dogs should be so treated. Let the owners correct this situation and we should see a drop in the number of game and farm animals being attacked. Such steps are all the more vital moreover in view of the lacreasing incidence of rables.

..HOW'S THAT FOR A SHOCK GUARANTEE!

On top of this low price and a great guarantee you're getting a quality product. These shocks are designed to give high spaced control "and a powerful comfort cushion. That's because of a heavy-gauge piston rod; 25%; larger piston; 50%; greater fluid capacity; and extra-large diameter reserve tube.

The state of th

show the school administra-tion would actually receive a wat revenue gain of \$42,000 for ordinary expenditures. . This was the prospect con-tained in a report on grant regulations given the Hastingo-Prisco E de u r d superatu-acheol board Tuesday by its superintendent E. J. Neville. . any expenditure budget was \$1,278,000.

Last year the board's ordin-ary expenditure budget was \$2,178,000.
"In 1972, to quality for the maximum grant, it should be \$2,300,000." said the report. "The increase in cost is \$173-for."

But in 1971 the maximum grant provided \$1.855.00 and in 1972 will be \$2.970,000. Therefore, points out the re-port, "the increased grant is \$273.300, or a net gain in re-june to the ratepayers of \$42.

Ontario cabinet minister A. B. R. Law-ce is in Havana for trade talks with the rence is in Havana for trade talks with the Cuban government. There had been no advance publicity, but he was spotted by a Canadian newsman involved in another unumin initiative — the first bourts tight from Canada since 1859 when Fidel Castro came to power and Cuba slid into the Communic orbit.

Canada of course has never broken off relations with Cubs, as the Americans did, and has preserved trade ties all along — a point Mr. Lawrence emphasizes — but "it oks as if there is scope for expansion and e should go after it," he said.

This sounds like good work on Mr. Law-ce's part. He said he had broached the rence's part. He said he had noticinal vides to friends in and out of politics beforehand and generally the response was favorable "even in what would be called capitalist circles." Ottawa also was aware of

of course there is nothing new to deal-ing with the Communist world and it is sig-nificant that Mr. Lawrence's Cuban venture follows on the basis of Berenue Minister follows on the beels of Revenue M follows on the heels of Berenne Minister Allan Grossman's visit to Peking. The lat-ter before his departure from Peking des-cribed the week-long skay in China as pro-ductive, one deal peing worth \$20,000 for the sale of steel-mill sensing equipment, and be mentioned that Canada will be staging an industrial exhibition in the Chinese capital

We need all the trade contacts we can get as well as expansion of existing ones such as these in Cuba and China.

Getting There Is ...

Mr. Lawrence made his trip to Cuba in a Lands and Forests aircraft of what size or a Lands and Forests arcrast or what are vintage we are not aware, but as columnist Don O'Hearn has pointed out former Prem-ier Robarts used similar departmental air-craft. It might be the same sort of executive crart. It might be the same nort of executive style prop plane we saw on the landing strip across from Upper Canada Village last year when Prenier Davis was there for tenth an-niversary ceremonies. Nothing very elaborengined blue and white job as we ate, a twin-engined blue and white joe as we recall and likely good enough to get to Cuba, and back. Mr. Lawrence has his wife and two children with him and we see nothing wrong with that, although questions may be asked whether the Minister is paying any of the cost of the flight out of his own pocket. asked whether the Minister is pay the cost of the flight out of his o Otherwise it may be deemed tha Otherwise it may be deemed that the family goes along courtesy of the taxpayers many of whom have difficulty enough financing a vacation at home let alone jaunts to exotic points outside the country. ed that the fan

You're looking at the cockpit of a Celica ST. The hot little hardtop from Toyous. The Celica is a car you'll want to drive just for the pure pleasure of it all. And the Celica has it all. Luxurlous interior. Full instrumpattation. Powerful 2 litre O.H.C. engilse. In fact once you're seen it you'd expect it to have a long list of costly options. Instead it has a long list of standard equipment including radial tires and an AM/FM radio.

It looks like one of those high performance cars. But it doesn't cost like one-Surprising as It may seem, the Celica, ST costs is then \$4000. And that's for everything. 50 It isn't surprising you couldn't Joues what it is. Now that you know, drive a Celica ST and really be surprised.

Newfoundlanders Go Conservative

PCs Have Firm Hold On Legislature

ST. JOHN'S, NId. (CP) — Frank: Putf Moores succeeded Friday in doday what no Progressive Conservative party leader had managed to do in nearly a quarter-century of Nariemondain protroical politics. He trimmed the Liberals for a clear-cut majority since Johning Canada in 1841. Does Moore Conservative government scored a resounding victory that should end the Pullital turbulence set off by last October's indective victs.

Forever, a party can win the popular vote and stall lose on election. Victories are based on the number of acuts won in the 28-place Commons, not on the percentage of the popular vote.

Consequently. Mr. Trudestu might still cell a Jirae election even if the survey indicated in Stab-hausstrong Liberal showing in the contest.

Did you learn all you know about tires in a place like this?

flike most Canadians you did, then we humbly submit you've got a lot to unlearn.

Because price, and price alone, is no basis upon which to buy a fure the properties of the properties. The properties was any of those facts as possible, and allow you to draw your own, concludiness. Recause hopefully, in the long run or operating hopefully, in the long run of your fires is important. Because beriefs saving or costing you money, it res may sace or cost your 'ife."

A Leading Consumer Magazine.

Perhaps the key thought in that statement, is "myor be the your thought in that statement, in 'myor was a superfect tire for your car, the one that will give you maximum value and use for your money, is one shat you select based on you own personal driving needs accuse hould ideally be fitted for the last you do you have you do you have you do you do you have you do you do you do you have you do you have you do you have you

It's not all that complicated.
You must first ask yourself some basic questions:
"How many miles do I drive each year?"
"How long am I going to keep my car?" (If you're

only planning to keep it for another 10,000 miles, there's not much point in buying tires good for 50 or 40,000-mile tread life, which is a simple of the form of

miles a year and don't do a lot of high speed high-way driving, then there's no need for you to buy a high-prices performance tire. You'd be wasting your and a search of the price which we'll be discussing in future adds would be more than suitable for you. Would more than match your driving needs. And is available for the needs. Two different tires. Two different prices.

Two different prices.

In one case you save money by spending and in the other you save money by not spending. In either case, you do it by buying exactly the rife and the prices are the prices. The different tires. In one case, you do it by buying exactly the rife and the prices are the prices. The prices are the prices are the prices and the prices and for the prices and fast talk.

If we leave you wish nothing else but that though, then you've learned something of value.

There's a lot more the weeks shead we'll be presenting you with more lacks and information.

Because we drawler and the prices are the prices and the prices are the prices.

If all your economy car has to offer is economy, you're wasting your money.

Many so-called economy cars aren't so economical when it comes down to what you get for what you pay.

Especially when you consider what you get with a Corolla. For the same money.

Unlike most other economy cars, the Corolla 1600 looks good.

Unlike most others, Corolla offers lots of big car comforts. Like leg room. Reclining bucket seats. A heater that heats. Fresh Flow ventilation. Things that would cost extra on theirs, but come standard on ours.

Unlike most others, Corolla offers a cross-flow engine as standard. The most efficient 1600 cc going.

Unlike most others, Corolla brings a high resale value. (Consistently higher than other

economy cars.) And last, but certainly not least, Corolla offers economy. Just like the

others.

TOYOTA

COROLLA 1806 with 182 hp Cross-Flow engine is available as 2 door sedam, 4-door sedam, coupe and
